CONSTRUCTION UPDATE 2020 STREET & UTILITY PROJECT

August 14, 2020

The 2020 Street & Utility Improvement project includes improvements on Scott Court from Central Avenue to the west, and 8th Avenue SE from TH 30 to south of Brian Court. Scott Court Improvements will include replacement of sanitary sewer and water pipes within the roadway, new service pipe to homes, installation of storm sewer, curb & gutter and roadway asphalt pavement. The improvements to 8th Avenue will include reconstruction of utilities within the roadway, new services to homes, storm sewer improvements, new curb & gutter and roadway asphalt pavement.

8th Avenue SE and Scott Court are both open to residential traffic and residents can drive on their concrete driveway aprons. During the week of 8/17/20, the contractor will begin shaping the grassy boulevard areas between the new curb & gutter and the property line. The contractor will reuse the available topsoil from the construction site and haul in new topsoil if necessary. Upon completion of the topsoil work, the contractor will install sod to restore the disturbed turf areas.

Thank you for your patience during the roadway surfacing work!

Residents will be kept up to date for the duration of construction with any changes in schedule or conflicts via these construction updates or door-to-door communication. Please note that rain or unforeseen circumstances could impact the contractor's schedule.

We apologize for any inconvenience this may cause. Thank you for your cooperation and understanding throughout the process of improving your street and utilities! Please call **Joe Smith** with Bolton & Menk at **(507) 676-3751**, or approach him on site, if you have any questions or concerns.
